SECRET 25X1 At 10:30 a.m. on 8 November, 5 trucks 25X1 each carrying 35 soldiers with red-bordered black epaulets and with wreaths. 5 other trucks and 1 jeep loaded with wreaths with 12 soldiers wearing red-25X1 bordered black epaulets and carrying wreaths drove through Bernauer Heer Strasse and entered the Schuetzen Kaserne. A wreath depositing ceremony was held at the Soviet monument in the cemetery between the Schuetzen 25X1 Kaserne and Artillerie Kaserne at about 11 a.m. About 2,000 troops with about 15 flags attended the ceremony. The units marched to the Schuetzen Kaserne at about 11:30 a.m. Another group in about the same strength and carrying 15 to 20 flags, left the Schuetzen Kaserne. Four tags from bales of cloth which were manufactured by German firms in East Germany in 1952 were found south of the Schuetzen Kaserne on 28 October 1952. 25X1 Comment. The report confirms the Schuetzen Kaserne and Artillerie Kaserne as being occupied by units of the Fourth Gds Mecz Army. The mortars mentioned in paragraph 1 as being parked in 25X1 the Schuetzen Kaserne were previously reported assignment could not be determined then. The only unit to which the arms could belong to is the 51st (?) Mtrcl Regt of the Fourth Gds Mecz Army 25X1 which, according to WW II records, was assumed to have had only one 6 x 12-mm mortar battery. The restricted area on Ebersberger Strasse is situated northwest of the Artillerie Kaserne and is used as billets for 25X1 officers from the above mentioned barracks installations. Comment. The former MEW power plant can still be carried as quartering 25X1 the Hq 63d AAA Div The AAA emplacement in Forest Section No 19 was reported several times as AAA emplacement near Westend School. It is located south of the MEW power plant. 3。 Comment. It appears that the wood camp Britz quarters elements of two 25X1 25X1 regiments of the 63d AAA Div as it did prior to the beginning of the summer training. 25X1 Comment. The cantonment at Duesterwinkelbruecke was presumably occupied only by components of the 3d Engr Regt of the Fourth Gds Mecz Army until 26 Movember 1952. The motor vehicles are believed to belong to the regiment. Comment. The military traffic observed is believed to have chiefly been part of the personnel exchange program and leave traffic of units of the Fourth Gds Mecz Army. Bad Freienwalde was also the processing point for dischargees of the Fourth Gds Mecz Army in the fall of this year. 25X1 25X1
